

## **ABSTRACT**

This is a review of the paper titled: **INSERT PAPER TITLE HERE**.

### **1 PROBLEM**

What is the Problem Being Solved here (not the solution they offer)? (2-3 sentences)

### **2 SOLUTION**

What is the New Idea they are proposing? (a few sentences)

### **3 REVIEW**

This is where you mention the positive and negative points that you thought of when reading the paper:

#### **3.1 Positives**

2-3 things you liked about the paper, with a sentence or two to explain each

- Positive point #1.
- Positive point #2.

#### **3.2 Negatives**

2-3 things you didn't like or thought were weak about the paper, with a sentence or two to explain each

- Negative point #1.
- Negative point #2.

### **4 FUTURE WORK**

If you were asked to extend the research, give one or two ideas you could explore. You may assume you would have access to any tools or data from the original paper. Give 2-3 sentences of detail, but be concrete about what you're proposing. One idea is to consider how this research could be made to help developers.

### **5 RATING**

on a scale of 1 (lame) to 5 (outstanding), with a one sentence rationale.

### **6 DISCUSSION POINTS**

Suggest at least two topics you would like to discuss about the paper in class (and then do so!); these can relate to directly your comments above.

- Point #1
- Point #2

### **7 ADDITIONAL COMMENTS**

Write any additional comments here

## **8 PROBLEM**

What is the Problem Being Solved here (not the solution they offer)? (2-3 sentences)

## **9 SOLUTION**

What is the New Idea they are proposing? (a few sentences)

## **10 REVIEW**

This is where you mention the positive and negative points that you thought of when reading the paper:

### **10.1 Positives**

2-3 things you liked about the paper, with a sentence or two to explain each

- Positive point #1.
- Positive point #2.

### **10.2 Negatives**

2-3 things you didn't like or thought were weak about the paper, with a sentence or two to explain each

- Negative point #1.
- Negative point #2.

## **11 FUTURE WORK**

If you were asked to extend the research, give one or two ideas you could explore. You may assume you would have access to any tools or data from the original paper. Give 2-3 sentences of detail, but be concrete about what you're proposing. One idea is to consider how this research could be made to help developers.

## **12 RATING**

on a scale of 1 (lame) to 5 (outstanding), with a one sentence rationale.

## **13 DISCUSSION POINTS**

Suggest at least two topics you would like to discuss about the paper in class (and then do so!); these can relate to directly your comments above.

- Point #1
- Point #2

## **14 ADDITIONAL COMMENTS**
